

### Summary of our School Improvement Plan 2017- 2018

- **These are our whole school priorities for this academic year.**
- **They are led by specific members of staff, shared with the whole school staff and governors and evaluated throughout the year.**
- **Full details can be found in our School Development Plan available on request.**

1.To build on the current good standards in Maths by focusing on any areas of difficulty raised by procedural tests and track numeracy across the curriculum through the reorganisation of the classes.

1b.To build on the current good standards in English by focusing on any areas of difficulty raised by the reading tests and track literacy across the curriculum through the reorganisation of the classes.

2. To improve the standardised scores of children with ALN, including MAT through specific precision teaching during the reorganisation of the classes.

3. To continue to plan from the digital competence framework and continue to build on competence in digital learning.

3. To continue to plan from the digital competence framework and continue to build on competence in digital learning.

Other Targets

- **To achieve Eco Schools Silver Award**
- **To review the school aims**
- **To develop the relationship of children in other small, rural schools**
- **To continue to promote the school in the immediate community and other villages**
- **To become a rights respecting school**
